Butte-Silver Bow County

The recession was relatively mild for the Butte area economy. There was only a one-year decline in nonfarm labor income. There were, however, decreases in construction and retail trade. The forecast assumes that the Montana Resources mine remains open and operating at about current levels, but that employee bonuses reflect changes in the price of copper. Chip and solar panel producer REC Silicon, located in Butte, continues to serve worldwide markets. The trade center components of Butte’s economic base (retail trade and services) continue to grow, reflecting the city’s continued development as a regional trade and service center.
