\* Difference between two or more sub-groups significant at .05 level.

Issue3. Next I'm going to list a few issues that some people associate with managing growth. For each issue please tell me how much of a problem it is, if at all, in all of Missoula County, including the City of Missoula, right now.

a. Traffic congestion

Manage1. Now I want to ask you about ways some communities manage the relationship between human activities and our natural environment. For each one please tell me how much of a priority it should be.

a. Maintaining and improving air quality

Manage2. Next I'm going to ask you about different ways that development and land use can be managed. For each one please tell me how much of a priority it should be.

a. Protect agriculture and forestry operations from encroachment of residential development

Manage3. Next we ask about a few ways that growth is managed in commercial and retail areas. For each one please tell me how much of a priority it should be.

a. Support development of smaller town or neighborhood commercial centers

|                             |                      | Support development of smaller town or neighborhood commercial centers |                            |                   |                             |                      |               | Total<br>Count |

\* Difference between two or more sub-groups significant at .05 level.

Manage4. Now I'm going to ask you about a few things local government could do to manage growth. For each tool I mention, please tell me if you support or oppose that tool.

a. Adopt county-wide zoning standards
